Rui Li

Argentinische Allee 121 in 14163 Berlin , (+49)15211020154, ruili_scott@hotmail.com

Experienced software engineer and project manager with 20+ years in full-cycle development and system architecture. Currently pursuing a Master’s in Data Science, seeking opportunities to bridge engineering expertise with Software development.

Skills:
- Backend: Java (Spring Boot, Spring Cloud), Node.js (Express, NestJS), Python (Flask, FastAPI)
- Frontend: Vue.js, React
- Data & Cloud: Hadoop, SparkSQL, Hive, HBase, Streamlit, Docker, GitHub Actions
- AI & Automation: Copilot Studio, Python automation scripts
- Methodologies: Agile (Scrum), DevOps, CI/CD

EXPERIENCE

Xu University Berlin program 2026.01 - Current

Cursor + MCP Data Integration & Analysis

Implemented custom MCP server to unify data from production, sales, promotion, and store systems

Developed promotion evaluation models analyzing key metrics: **ROI, lift,** incrementality

Created store performance dashboard with SQL and Python

SAP Time & Attendance Automation 2025.10 - Current

Engineered Python scripts to reconcile SAP attendance logs with production shift schedules

Automated calculation of actual working hours, overtime, and attendance compliance

Nantian, Kunming, China 2000.07— 2025.04

Software development and system integration company with 500+ employees

2023.10—2025.04 Lead Developer

Lead and develop government investment platform for Kunming. Responsible for architecture design, implementation, execution, testing and deployment.

Supervised teams, mentoring junior developers and fostering a culture of collaboration and innovation.

Designed and delivered a scalable **microservices architecture** using Spring Cloud, enabling simultaneous web, mini-program, and real-time data **dashboard** front-end presentations.

2020.06—2023.09 Project Manager

Led a **20-member** development team to deliver a TB-scale data platform integrating power plant, enterprise, and regulatory data.

Architected the system and led the **migration of legacy data**, ensuring integrity across interconnected systems.

Integrated and processed TB-scale data from diverse sources, streamlining data cleansing and analysis.

Championed Agile adoption, boosting team efficiency and client satisfaction.

2008.04—2020.05 Senior Software Developer

Orchestrated smart city initiatives that boosted operational efficiency by **25%** and enhanced data-driven decision-making. Delivered modernized infrastructure solutions, resulting in a **15% increase in client satisfaction.**

Managed full software development lifecycle for high-stakes banking projects, ensuring on-time and on-budget delivery in strict adherence to **Bank of China's standards.**

Executed **5-6 feature upgrades annually** for a network of 20,000+ devices, achieving a **24-hour turnaround** for all software updates.

2000.07—2008.03 Software Developer

Enhanced operational efficiency and service reliability across **8,000+ self-service devices**, resulting in a **20% reduction in system downtime.**

Implemented tailored solutions improving operational efficiency, leading to a **10% increase** in service reliability.

EDUCATION

1996— 2000 Tianjin University, China Computer Science and Technology (Bachelor)

2025 — Present Xu Exponential University , Berlin Master of Science in Data Science

SKILL&AWARD

SKILLS: English B2 , Deutsch B1, Chinese Native

AWARD:

1, Received two times(2007, 2010) Outstanding Employee awards

2, Received two times(2012, 2016) Outstanding Manager awards

3, Received three times(2014, 2021, 2023) Outstanding Team awards
